Davis, CA | (408) 598-5459 | lyannanguyen21@gmail.com | https://lyannanguyen.com

Education

University of California, Davis — Davis, CA
B.S. in Cognitive Science — *2025 – 2027*

Experience

Google (through CodeLab, Contract) — Oct 2026 – Present
UX Researcher Intern — *Davis, CA*

- Segmented YouTube Career Page users into 3 candidate cohorts (first-time, early-career, and experienced job seekers) by designing surveys and synthesizing responses by career stage.
- Shaped a candidate profile feature to attract high-profile candidates to YouTube roles by interviewing recruiters and job candidates about their application experiences.
- Recruited survey participants across campus by running tabling with incentives, flyers, and classroom outreach.

HackDavis — Jun 2026 – Present
UI/UX Design Director — *Davis, CA*

- Defined the visual theme and branding for an event of 750+ expected attendees, taking designs from lo-fi sketches to hi-fi prototypes in Figma.
- Unified this year's branding by translating the theme's narrative into a Figma design system.
- Designed registration and About Us pages with a story-led content hierarchy and scannable layouts, so first-time and experienced hackers each find what they need.
- Resolved last year's handoff limitations by delivering hi-fi prototypes to the tech team and setting FigJam deadlines with leads.

UC Davis Triceratops (Contract) — Jun 2026 – Oct 2026
Product Designer & Developer Intern | Website — *Davis, CA*

- Shipped a 0-to-1 site unifying a nearly 5,000-member Discord server and routing visitors to its Discord and Instagram.
- Identified 3 audience segments by affinity mapping 60+ survey responses and 12+ interviews, and benchmarked 9+ competitor sites with a SWOT analysis.
- Simplified onboarding into one numbered path after usability testing showed users didn't know where to look, then refined it through 5 client reviews and 4 designer audits.
- Took the site from Figma to a live launch in 14 weeks with a 6-person team, applying WCAG accessibility guidelines and building with VS Code, GitHub, Cloudflare, and Claude.

#Include — Davis, CA
Design Lead — *Jun 2026 – Present*

- Developed an 8-topic workshop curriculum, spanning design challenges, portfolio and resume tips, Figma MCP, and designer-developer collaboration, to train future designers and build community.
- Planning a biweekly workshop series to deliver the curriculum, with the first session targeted for early November 2026.

Product Design Intern — *Jan 2026 – May 2026*

- Designed 3 key pages for the UC Davis Linguistics Club website and supported developer handoff through client approval.

Projects

Linguistics Club Website | *Product Design Intern, #Include* | Case Study — Jan 2026 – May 2026

- Designed a website for 150+ Linguistics Club members, mapping its information architecture across 4 pages after user interviews and a SWOT analysis of 6+ club websites.
- Made opportunities 80% easier to find in 6 usability tests by splitting the Opportunities page into undergrad and grad tracks.
- Confirmed technical feasibility by resolving 2 design-to-code inconsistencies with developers.

Skills

Design Methods: User Research, User Interviews, Surveys, Usability Testing, Affinity Mapping, Information Architecture, Competitive Analysis (SWOT), Wireframing, Prototyping, Design Systems, Accessibility (WCAG), Visual Branding, Storytelling
Design Tools: Figma, FigJam, Adobe Illustrator, Canva
Development & Collaboration: Design-to-Dev Handoff, VS Code, GitHub, Cloudflare, AI-Assisted Development (Claude), Notion
